

Master bedroom floor refinished (17hrs) – one finish coat of four

These boards came from a neighbour's house

Casing for a bedroom

Confused organization

More casings drying

Casings await installation

I just have to have a nap!

Original casings await installation

Mini crown moulding in office

Straight & curved walls meet

Not bad for Granary boards

Upstairs bedroom door - 1860

Cast iron tub installed

A modern shower for the girls

Master bedroom window trim

A smoky 1860 door awaits cleaning

Walnut boards at Oesch's

Walnut boards get turned into a fine linen cabinet for a Bathroom

**Jack Young of Kinburn (1843ish)
signed by the carpenter**

**James Turner signed this board,
originally a second floor partition**

I wonder if Stan drew this

Plans for a dart board?

An artist at work

I must talk to Eleanor about Angus!

Oesch Woodworking made the beaded top on the baseboards

I'm making closet doors using original partition boards (upstairs)

Jack Young signed his work

I've left Jack's signature on the door for all to see

Assembling another door

Now the baseboards get primed

Set out to dry

Bedroom side of an 1860 door

Work going on everywhere

Diamond panels face the hallway

Square panels face the room

We need better door stops than a piece of styrofoam (it works!)

Casing for a closet door

Master bedroom door

Hallway side of the master bedroom door (1860)

No room for a dog to run around

Bathroom fixtures installed

**Master bathroom vanity arrives,
walnut came from the property.**

After the storm

**I wonder if Turners kept warm up
on the hill during the storm**

Snow has drifted around the house

Refinished cast iron heat register

Finish coat on the baseboards

No room to move!

It's piled up everywhere

Even in the Entrance

First register installed

Paint has a hammered finish

Patent date in the casting

Crown 1915 10 x 7

Second register installed

Ready for baseboards

Hinged flap controls the air

Faux finish done with combs

T&C Clark 4" cast iron hinges #333

Cast iron registers in the paint room (that's the old basement)

Cast iron diffusers behind the spider web face

Another patterned front – registers from Lucan Architectural

Here's the backside

Set in place beneath a window

Granary board ceiling in the kitchen – ceiling exhaust fan

Cast iron of course

Pretty, yet functional
